## HELLO!

I am a 23 years old Graphic Designer with a Bachelor’s degree, now advancing skills in a Master’s program focused on New Technologies for Arts. Passionate about 3D design, real-time digital art, and experimental image-making, merging creative vision with technical execution to push visual storytelling forward.

### Skills

#### Interactive Media & Real-Time Systems

Experienced in creating immersive digital installations using TouchDesigner and Max/MSP, with a focus on real-time visuals, generative design, and interactive audiovisual experiences. Skilled in prototyping sensor-driven environments, projection mapping, and integrating hardware/software systems for live performances or exhibitions.

#### 3D Motion

Experience with SideFX Houdini, Cinema 4D, and Redshift. My foundation comes from digital art courses during my Bachelor's program, where I studied Product Modeling, Rendering, and Motion Design. I particularly enjoy exploring Houdini's capabilities to create visually compelling work, always valuing the process of research and experimentation to achieve quality results.

#### Graphic Design

Great knowledge of the Adobe suite, the principals of Graphic Design, lettering and digital printing.

#### Branding & Visual Identity

Good understanding of the differend steps of a branding action, I've had the opportunity to develop logos, brand systems, and visual identities that balance creativity with strategic thinking.

#### Video Editing & Projections

Proficient in post-production workflows (Premiere Pro, After Effects) with a focus on content tailored for immersive installations. Experience optimizing video assets for multi-projector environments, including video mapping

#### Photography

Through a hands-on photography course, I mastered essential lighting techniques and gained practical experience coordinating shoots in a professional studio setting. Additionally, I have developed skills in videography, from shooting to post-production editing.

#### Team works

I am used to be active part of a team, whether it’s a sport team or a group of creatives, i always find it stimulating to join forces and minds with other people.

### Education

September 2015  
- June 2020

High school Diploma, Liceo Scientifico Statale Leonardo - Science diploma

October 2020  
- October 2023

Accademia SantaGiulia Brescia - Graphic Design and Communication

October 2023  
- Currently

NABA Milano - New Technologies (Creative Coding Program)

### A bit more about me

Italian native speaker with professional English proficiency. Developed discipline and teamwork through competitive sports including judo, football, and volleyball. Lived abroad in the UK for one month and traveled extensively in Europe. Enjoy social networking, exploring international cuisines, and staying informed about global current affairs.

Regards.
